

~ The Only One in The World: Original Product ~

This is a company that accepts OEM design. From product planning, designing, producing to make it hit the market, we can do these by ourselves. As a traditional craftsman who specializes in making kishu paulownia chest of drawer, I inherit technical know-how from predecessors and infuse that with my unique technique to make new merchandise. In addition, with the state-of-the-art NC router, we not only can make products almost the same as the handmade one in quality, but also have much success in faster-processing and mass production.

We feel that the market and consumer are eager for the original product. Thus, please feel free to tell us your idea whether it is in detail or not, and hope we can make the idea a reality together.

Example of OEM Products

【HOKURORU SOUSUI】

~ Paulownia Wood Compact Mirror ~

HOKURORU SOUSUI is a company famous for its reliable and safe beauty products, and firmly stick to use the natural material. Because the paulownia wood product is light, it is conveniently sized to bring anywhere. With its beautifully round shape and smooth texture, you will feel the warmth of wood and feel comfortably as it lies in your hand. Available in 2 types: a plane mirror for daily use and 2 times magnifying mirror, convenient to check the details of your face.

【genten】

~ Paulownia Wood 2-level Lunch Box ~

Considering 2 characteristics of the paulownia wood (anti-bacteria and humidity control), we cooperate with genten, a brand famous for bags, to make this 2-level lunch box. The amazing technique makes this item have nice wood texture, and keep the food safe. Many female staff and foreign tourists are like it very much.
